Customs Brokerage FAQs

What is a Customs broker?

Customs brokers are private individuals, partnerships, associations or corporations licensed, regulated and empowered by U.S. Customs and Border Protection (CBP) to assist importers and exporters in meeting Federal requirements governing imports. Customs brokers generally provide the following services:

- Prepare and present the necessary customs release documents or data required by U.S. Customs and Participating Government Agencies (PGAs)
- Facilitate the release of goods from U.S. Customs custody
- File entry (CF 7501) data/documents with U.S. Customs on behalf of the importer
- Pay duties on behalf of the importer
- Pay carrier charges on behalf of the importer

What is a Customs bond?

The Bond guarantees that CBP will collect all import duties, taxes, fines or penalties, if not from the importer then from the insurance/surety company who issued the bond.

What is a Proforma?

An abridged invoice sent by a seller to a buyer detailing a shipment or delivery of goods. It notes the kind and quantity of goods, their value, and other important information such as weight and transportation charges. Pro forma invoices are commonly used for customs purposes in importation. They differ from a normal invoice in not being a demand or request for payment.
