

Global Logistics + So Much More.

Logistics Plus[®] is much more than a leading worldwide provider of transportation, warehousing, fulfillment, global logistics, business intelligence, technology, and supply chain solutions.

We are a **21st Century Logistics Company[™]**. And with our trademark **Passion for Excellence[™]**, we put the + in logistics by doing the big things properly, plus the countless little things, that ensure complete satisfaction and success.

INTRODUCTION

PASSION FOR EXCELLENCE™

OUR HISTORY

FOUNDED IN 1996

Logistics Plus Inc. (LP) is a leading worldwide provider of transportation, warehousing, fulfillment, global logistics, business intelligence, technology, and supply chain solutions. The company was founded over 25 years ago in Erie, PA by local entrepreneur, Jim Berlin. Today, the company has over \$500M in global revenues, 1,000 employees, and thousands of customers.

HUMBLE BEGINNINGS

Jim founded Logistics Plus in 1996 with only three employees, one customer and a \$120,000 purchase order from our first customer, GE Transportation.

THE PLUS IN LOGISTICS

LOGISTICS

The process of planning, implementing and controlling the efficient, cost-effective flow of raw materials, in-process inventory, finished goods and related information from the point of origin to the point of consumption for the purpose of conforming to customer requirements.

PLUS

The “plus” in Logistics Plus is doing big things properly, and the countless little things, that together ensure complete customer satisfaction and success, including handling supply chain challenges from start-to-finish, and by doing what “the other guys” can’t or won’t do.

CUSTOMIZED ONLINE PORTAL

The MyLogisticsPlus portal can be customized and scaled to each individual client's needs.

Single or multi-modal capabilities, including parcel, LTL, truckload, and international freight forwarding.

Dashboard reports to more deeply analyze trends & results or to 'drill-down' into detailed data.

BUSINESS INTELLIGENCE SOLUTIONS

END TO END SUPPLY CHAIN VISIBILITY

Logistics Plus® offers a full suite of user-friendly BI tools that are reflective of specific customer requirements.

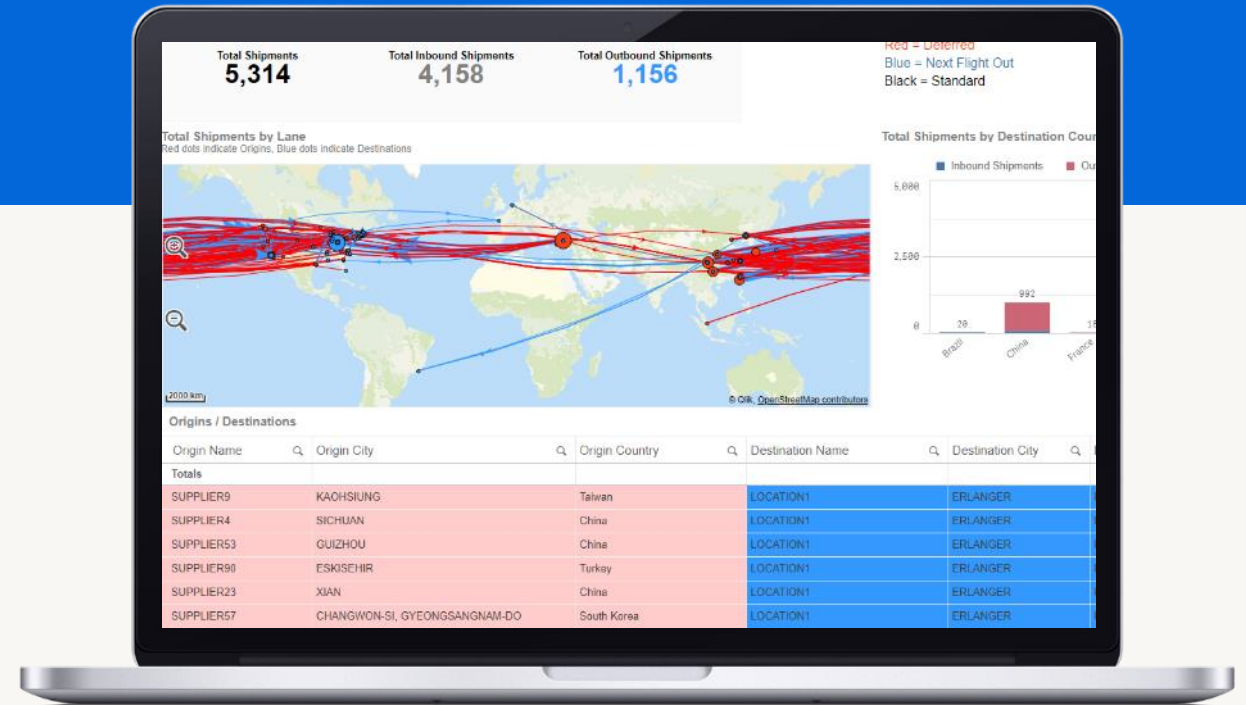

Our custom **analytic solutions** cater to the exact specifications and requirements of our clients rather than having a standard “out of the box” solution.

By using **predictive analytics**, we help businesses budget and plan by utilizing existing data to forecast and anticipate future events.

Our **custom reporting** abilities begin with raw data and end with digestible, useful information to help our clients to find savings opportunities.

CONTROL TOWER CAPABILITIES

CAPTURING DATA POINTS ACROSS THE GLOBE

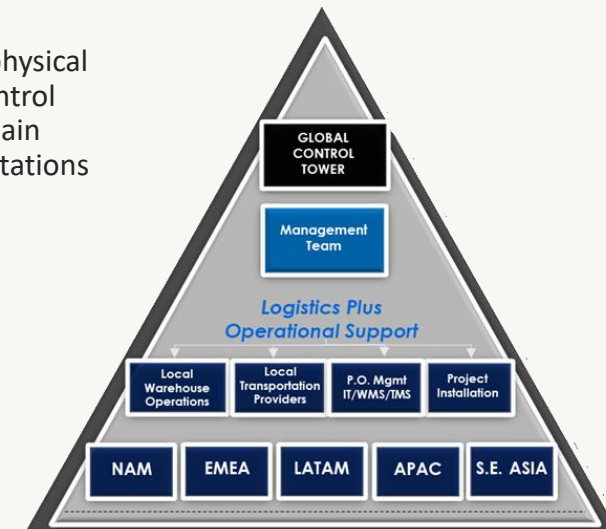

By tracking milestones and the progress of each shipment, we are able to identify specific pain points in a supply chain.

Logistics Plus captures data points regarding the physical movement of shipments across the globe. Our control tower capabilities find the root cause of supply chain disruptions so our clients can readjust their expectations or change their processes in a specific country.

By offering the flexibility of tracking one unique shipment, or analyzing multiple shipments on an aggregate level, our control tower capabilities allow our customers to gain a better perspective on all shipment activities.
