

Technology Solutions

Logistics Plus® has practical, user-friendly and world-class technology solutions for TMS, freight forwarding, WMS, eCommerce fulfillment, and supply chain management.

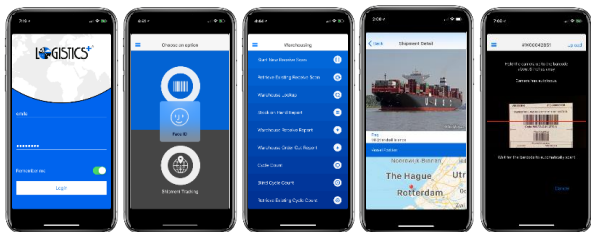

Logistics Plus Solutions

The flat, nimble structure at Logistics Plus allows us to stay on the cutting-edge of new technologies and create customized solutions for our clients.

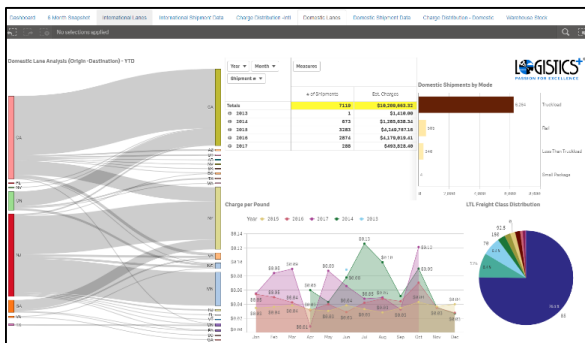

Mobile App for iOS and Android

- Our proprietary mobile application can be used for both warehousing management (bar-code scanning, order processing, inventory management, etc.) and shipment tracking (parcel, freight, or global).

Business Intelligence (BI)

- Our full-service BI team helps clients create valuable dashboards, data visualizations and insights.

World-Class Technology Solutions

Logistics Plus world-class technology is built on industry-standard platforms with customized portals and unique functionality designed to provide our clients with valuable tools, information, and dashboards. Our team of development, integration and business intelligence (BI) experts integrate best-in-class and custom-built platforms to provide an overall ecosystem that can be seamlessly integrated into global supply chains.

Here is a little more detail on some of our core systems:

- North American TMS
- Get LTL shipment quotes for multiple top tier carriers
- Create bills of lading and schedule shipments
- Track your LTL and truckload shipments, including access to MacroPoint® load-tracking services.
- View shipment dashboards, run reports, and more!

- Global TMS powered by CargoWise One®
- Request spot quotes on your international shipments
- Track shipment and container moves
- File customs documentation
- Check product inventory and WMS capabilities
- View shipment dashboards, run reports, and more!

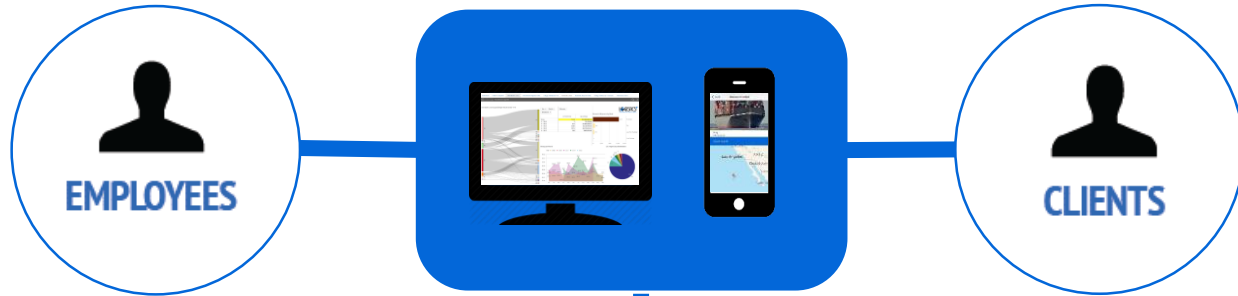

- Customized reporting and consolidated tracking
- Business intelligence (BI) dashboards and data visualizations, powered by Qlik®
- Data integrations, training and administrative tools
- Mobile App for iPhone and Android

A Platform for Success

Logistics Plus® world-class technology is built on industry-standard platforms with customized portals and unique functionality designed to provide our clients with valuable tools, information, and dashboards.

The Logistics Plus Technology Ecosystem

MyLogisticsPlus™ is our custom-built portal, personalized to meet our clients' specific visualization, reporting, and usability requirements and provide extended functionality (via Desktop PC and Mobile App).

CargoWiseOne

Our integrated global logistics and back office platform for freight forwarding, tracking, customs clearance, warehousing (WMS), accounting, and more.

Our client-facing web portal that's integrated with CargoWise One to provide real-time global shipment quoting, cargo tracking, warehousing, and more.

Our proprietary North American transportation management system (TMS) designed to be extremely flexible and user-friendly for quoting, tracking, booking, and more.

Business Intelligence (BI) and analytics powered by Qlik® - an 8-year Gartner Magic Quadrant platform.

Custom-built mobile warehousing and transportation app for iPhone and Android.

Seamlessly integrated eCommerce pick, pack and ship fulfillment capabilities, powered by VeraCore®.

Customized, turnkey management system for the Furniture, Fixtures & Equipment industry.
